

Research Documentation (Placeholder)

Adaptive AI Coding Mentor

This is a placeholder file. Replace it at:
frontend/public/docs/research-documentation.pdf

The Documentation button in the app header links to this path
(configurable via DOCUMENTATION_PATH in frontend/src/api/client.js).

Once you have the real research write-up (methodology, ADS/Coding Skill formula derivation, validation study, etc.), overwrite this file with the same name and the link will work unchanged.
